

I wanted you to be one of the first to know about CDC's new Congenital Heart Defects website! They've been working hard to create a research-based site that is user-friendly, up-to-date, and appealing.

Some of the new features of the site include:

- Easy-to-read information on prevention, risk factors, diagnosis, and living with a congenital heart defect.
- Information about specific congenital heart defects.
- A compilation of important data and scientific publications.
- An overview of the work CDC and its partners are doing in the area of congenital heart defects.

Visit their site: <http://www.cdc.gov/ncbddd/heartdefects/index.html>
